### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art made of record has failed to suggest either singly or in combination a novel runner for a vehicle seat. The applicant has disclosed a runner comprising first and second rails mounted to the slide relative to each other in a longitudinal direction and a locking mechanism for preventing the first and second rails from moving relative to each other. The locking mechanism comprising a catch carried by the first rail and a latch provided with a series of teeth that is connected with the second rail. And control means that can move between a locking and unlocking position; wherein an additional latch is mounted to pivot on the main latch about a second pivot axis, wherein the additional latch is interposed between the main latch and the control member so that the control member moves from the locking and unlocking position; and the additional latch and main latch are pivoted about the first axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to further show the state of the art
